Leepakshi Anand

New York, NY | la453@cornell.edu | (516)-401-9906 | linkedin.com/in/leepakshi-anand

EDUCATION

Cornell University **Ithaca, NY**
B.S. Operations Research and Information Engineering *Expected May 2028*
Minors: Artificial Intelligence & Business
Relevant Coursework: Data Structures, Machine Learning, Practical Tools for Machine Learning & AI, Statistics and Probability, Linear Algebra, Introduction to Data Science, Microeconomics, Macroeconomics

EXPERIENCE

Amazon Web Services **Bellevue, WA**
Software Engineering Intern (Ingestion Hub) *May 2026 - Present*
- Lead development of an AI-powered schema inference platform that automatically maps service-specific logs to OpenTelemetry
- Designed a hybrid inference engine combining deterministic schema matching with a knowledge-base-powered LLM pipeline
- Built a self-service onboarding platform that generates OpenTelemetry configurations for new services based on their logging needs
- Partner with engineers and stakeholders to define product requirements, prioritize features, and improve developer onboarding

Amazon Web Services **Seattle, WA**
Software Engineering Intern (Ingestion Worker) *May 2025 - August 2025*
- Designed and launched an AI-powered internal product that automated on-call workflows, reducing manual intervention by 40%
- Partnered with 10+ engineers and stakeholders to define requirements, iterate on features, and refine solutions through design reviews
- Integrated AWS Bedrock with Lambda and Step Functions, increasing on-call efficiency by 45% through workflow automation
- Delivered a production-ready solution that continues to support engineering teams and streamline daily operational activities

LEADERSHIP

Cornell AI Strategy **Ithaca, NY**
Project Manager *February 2026 - Present*
- Lead a cross-functional team of 9 engineers building an AI-powered resume optimization platform using large language models
- Translate needs into product requirements, define MVP scope, and prioritize features across frontend, backend, and AI workstreams
- Coordinate product development through weekly agile sprints, milestone planning, and progress tracking across technical workstreams
- Resolve technical and operational blockers to maintain team alignment and drive the team toward MVP delivery on schedule

South Asian Business Association **Ithaca, NY**
Vice President of Recruitment, New Member Educator *January 2025 - Present*
- Led onboarding and mentorship initiatives that increased member retention and engagement by 30% while doubling the applicants
- Analyzed recruitment data to identify candidate drop-off points, improving interview-to-acceptance conversion by 20%
- Collaborated with the executive board to refine selection criteria and streamline recruitment workflows for 100+ applicants
- Led recruitment events, coordinated interview logistics, and created a more structured and consistent candidate experience

PROJECTS

AI Resume Editor
Python | LLMs | NLP | FastAPI | React | PostgreSQL
- Developed an AI-powered platform using LLMs and NLP to tailor resumes for 50+ clients to specific job descriptions.
- Built Python and LLM pipelines for document extraction, semantic comparison, and personalized resume tailoring
- Integrated FastAPI, PostgreSQL, and React to deliver real-time recommendations through an end-to-end product workflow

Coronary Heart Disease Risk Prediction
Python | Pandas | NumPy | scikit-learn | Exploratory Data Analysis
- Processed and analyzed 100,000+ patient records to build a high-quality dataset for data-driven heart disease risk prediction
- Developed and evaluated Logistic Regression, Random Forest, and SVM models to compare performance across patient profiles
- Conducted statistical analysis and feature importance evaluation, improving model interpretability and robustness by 15%

SKILLS & INTERESTS

Technical Skills: Python, Java, SQL, R, Excel, AWS (Bedrock, Lambda, SageMaker, CloudWatch, DynamoDB, Step Functions), Git
Certifications: AWS AI Developer, Digital Marketing, Google Ad, Prompt Engineering, Bedrock Agents
Languages: English (Native), Hindi (Native), Punjabi (Full working proficiency), Spanish (Elementary), Urdu (Elementary)
Interests: Badminton, Cooking, Baking, Formula 1, Hiking, Biking, Machine Learning, Entrepreneurship, Cricket, Volleyball
